**Vaughn Chiropractic**

Dr. Jacqueline Vaughn Dr. Ronda Vaughn Marshall  
3093 Sashabaw Rd. Ste B Waterford, MI 48329 248.674.4898

**Terms of Acceptance**

**When we accept you as a patient, it's important that you understand the objectives of your care. Chiropractors provide a unique service that other healthcare providers do not offer. Chiropractors specialize in the location and correction of vertebral subluxations for the purpose of improving the health and function of your spine and nervous system.**

A Vertebral Subluxation is a misalignment or distortion of your spinal column and/or related structures that can affect your health and overall body functioning. Chiropractors spend years studying how to locate and correct this destructive condition. The correction is performed using specialized techniques called chiropractic or spinal adjustments+over a period of time. When your spine is free of the nerve and musculoskeletal stress caused by subluxations your body can function more efficiently and your body's natural ability to heal can work more optimally.

It is not our objective to medically diagnose or treat any disease, symptom or condition. If you desire diagnosis or medical treatment for a specific symptom, or treatment of a specific symptom, disease or condition, or advice on taking or stopping medications, we recommend you consult a healthcare provider who specializes in that area.

If we discover unusual findings during the course of your chiropractic examination(s) we will let you know of them. You may then decide whether you wish to investigate further and discuss your healthcare options with other health professionals. We will cooperate with you and them in your goals.

Summary. The purpose of chiropractic care is not to treat diseases or conditions, nor to suppress symptoms, nor to perform surgery or prescribe medications, but rather to improve the health and function of your spine and nerve system to help your body function at its optimum health and healing potential.

It is our objective to improve and maintain the health and normal function of your spine and nerve system to the maximum degree possible for you.

**\*\*PREGNANCY RELEASE**

This is to certify that to the best of my knowledge I am not pregnant and the above doctor and her associates have my permission to perform an x-ray evaluation. I have been advised that x-ray can be hazardous to an unborn child.
